

## **IDEAL FLOOR PAINT.**

### **PRODUCT DESCRIPTION AND USES**

Formulated for the decoration and protection of interior concrete floors. Based on a special, tough and flexible resin and pigmented with oxide pigments. Ideal Floor paint offers excellent adhesion to concrete floors, high opacity, good abrasion and scrub resistance.

### **SURFACE PREPARATION**

New or old concrete floors must be clean from all contaminants. Smooth surfaces should be etched with 5-10% solution of hydrochloric acid in water, to form a key. Wash off with water to remove all traces of acid and allowed to dry thoroughly. 2 coats of Ideal Floor paint are recommended for new surfaces.

### **FINISH**

Gloss

### **APPLICATION**

Brush or spray.

### **THINNING AND MIXING.**

Thin with Ideal White Spirit. Stir well before use.

### **EQUIPMENT CLEANING**

Clean equipment immediately after use with Ideal White Spirit.

### **DRYING TIME.**

Touch dry in 4 hrs. Hard dry and re-coatable in 16 hours.

### **COLOUR RANGE**

Red, Grey & Green

### **SPREADING CAPACITY**

10-12 m<sup>2</sup> per litre on properly prepared surfaces.

### **PACK SIZES**

1 litre, 4 litres & 20 litres
