

## **IDEAL NC VARNISH CLEAR/MATT**

### **PRODUCT DESCRIPTION AND USES**

A high quality Nitro-Cellulose (NC) based lacquer producing a tough clear gloss or matt finish on properly prepared timber surfaces. Fast drying and easy to apply.

It is ideal for use on high quality furniture where high chemical resistance is not a priority. It can be applied on both new and previously lacquered wood.

### **SURFACE PREPARATION**

Surface to be lacquered must be clean, dry and free from oil, grease, wax and other contaminants. Apply Ideal Sanding Sealer and sand down before applying Ideal NC Varnish. Previously lacquered surfaces must be sanded properly before application of new coat.

### **FINISH**

Gloss, matt

### **APPLICATION**

By spray gun. Apply 1-2 coats, sanding in between coats; ensure that the previous coats are thoroughly dry.

### **THINNING AND MIXING**

Ideal High Gloss thinner or Ideal Standard thinner. Stir well before use.

### **EQUIPMENT CLEANING**

Clean equipment immediately after use with Ideal High Gloss or Ideal Standard Thinner.

### **DRYING TIME**

20-30 minutes

### **COLOUR RANGE**

Clear

### **SPREADING CAPACITY**

10-12m<sup>2</sup> per litre at 45 microns DFT

### **PACK SIZES**

1 litre & 4 litres
